For Mother & New Born Baby

Secure Tags

The image displays a set of seven identical, horizontally-oriented, T-shaped labels, each designed for a 'Lifeopto' device. The labels are arranged in a vertical stack, each featuring a distinct color: red, grey, green, blue, pink, and orange. Each label has a tab on the left side with two circular punch holes. The main body of the label is divided into three sections: a 'LOGO' section, a 'Name' and 'IP No.' section, and an 'Age / Sex' and 'Consultant' section. The 'Lifeopto' brand name is printed vertically on the right side of each label. The labels are designed to be used as a visual aid for identifying patients or equipment.

Color	LOGO	Name	IP No.	Age / Sex	Consultant	Lifeopto
Red						
Grey						
Green						
Blue						
Pink						
Orange						

Mother & Infant Tags

The image displays two Mother & Infant Tags. Each tag is a long, thin, pinkish-red strip with a white central area for text. The tags are designed to be attached to a baby's identification band. The top tag is oriented horizontally, while the bottom tag is oriented vertically. Both tags feature a small white square with two dots at one end, likely for identification or tracking. The bottom tag has a small white square with two dots at the other end. The text on the tags is as follows:

Field	Top Tag (Horizontal)	Bottom Tag (Vertical)
Logo	Logo	Logo
Name	Name	Name
IP No.	IP No.	IP No.
Age / Sex	Age / Sex	Age / Sex
Consultant	Consultant	Consultant
