Perforated Type Cable Tray

We offer the most extensive range of perforated type cables trays, which are used for the installation of cables, smaller & controlled cables. These trays can accommodate large number of branch lines and have high load-bearing capacity. These cable trays are also available with covers. We can also customize the products depending upon the specific requirements.

Ladder Type Cable Tray

The Ladder Type cable offer strength and high capacity and thus are well suited to heavy duty power distribution in industrial facilities. Ladder, however, do not offer either wire and cable management flexibility of perforated type cable tray, since it is a ladder type cable tray. It's size can vary as per the client requirement. These ladders type are made out of MS Angle & MS Flats.

Raceway

Our raceways offer perfect solutions for Networking wiring management systems. Contemporarily designed and affordable, the raceways are functional for wire enclosure applications in commercial, industrial and residential environments. These raceways are installed in schools, hospitals (laboratories, MRI, OR, ER) offices, warehouses etc. because they maximize system performance while optimizing costs.

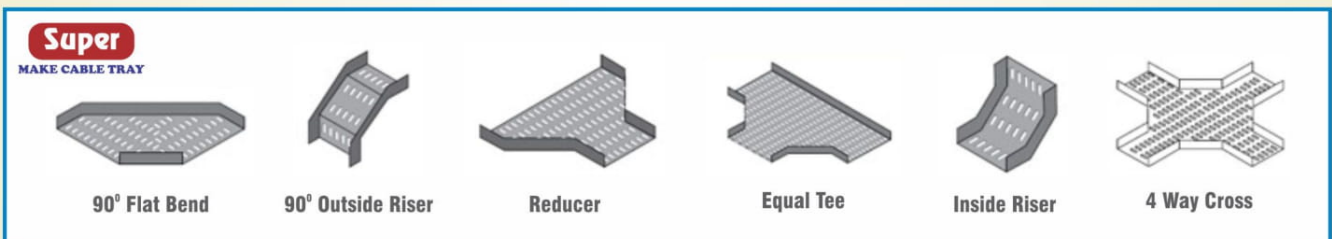

Raceway Junction Box

Our organization specializes in offering a wide range of Raceway Junction Boxes which has a unique specialty of providing security and access to wiring. These boxes are extensively used for connecting wires and also allow easy access when repairing is required. Made from high grade war material, our junction boxes are corrosion. resistant and have high load nearing capacity.

Perforated Type cable Tray Accessories

We manufacture Vertical, Horizontal Bend, Elbow, Tee and Cross for Perforated Cable Trays which are exclusively designed for standard support, Bends are tested for quality on all stages of production. We also offer customized solutions as per the client's specifications. These are available in different sizes as demand of customer.

Cable tray Accessories

We are manufacturer of Ladder Cable Tray Accessories to our clients which facilitate installation of cable tray in various industries, our cable trays Manufactured as per the preset standards, these can be customized as per the requirements of our clients. Our range includes vertical bend, horizontal bend, cross and horizontal Tee.

Slotted Angles

We supply and manufacture a flawless range of steel angles and slotted racks. These are made available in different sizes and gauges with angles coming in painted/plain/hot dip galvanized/powder coated finished so as to assure in these higher corrosion resistance and longer service life.

Slotted Angle Racks

We Manufacturer these Slotted Angle Racks (steel rack) in such a way that it gives long lasting usage and have high loading capacity. These Tacks are available in different sizes and specifications as per the customers requirements.

Two Tier Racks with Mezzanine Floor

We offer the 2 tier slotted angle storage systems that are uniquely designed and are mostly used by defense, industries and ware houses, where there is an actual shortage of space and vertical space is available for storage.
