HEMANSHU RADADIYA

Civil Engineer

PROFESSIONAL EXPERIENCE

Glory Corporation (Mumbai) | 2020 – Present
Site Engineer

- Determine project budget and schedule, perform site visits, and oversee the project throughout its lifecycle.
- Acquire necessary permits, approvals, and regulatory requirements.
- Document and communicate the project timeline.
- Ensure workplace safety and compliance with quality protocols.
- Maintain records for each project and engineering discipline.
- Suggest improvements in design, construction methods, and materials based on field observations or changing conditions.
- Build and maintain relationships with suppliers to ensure quality and timely delivery of materials.

J. J. Kikani Associates (Mumbai) | 2019 – 2020
Structure Designer

- Managed projects under the guidance of a senior RCC and Steel Structure Consultant, overseeing the entire lifecycle from design to implementation
- Created designs for RCC and Steel Structures across various types of buildings and steel structures
- Revitalized aging structures using advanced repair and reinforcement construction techniques
- Maintained comprehensive records of design processes and outcomes to ensure accuracy in project results

Tirupati Enterprise (Vadodara) | 2019
Trainee engineer

- Acquired skills in forecasting cost, quantity, and budget for small-scale construction projects, including manpower and labor management.
- Efficiently managed all project-related documentation, such as reports and drawings.
- Conducted site surveys alongside senior team members and analyzed data to execute civil engineering projects successfully.
- Gained knowledge of site and construction safety standards pertaining to equipment and workforce.
- Proven ability to learn quickly and adapt to new situations.
